EXPERIENCES 💼

SOFTWARE ENGINEER SR.
Feb. 2023 - Now - Uniphore - Palo Alto, CA

- Integration and management of Python API proposing an access to a AI model
- Develop features and solutions and write technical design based on the requirements
- Develop and execute unit tests for product components
- Perform peer code reviews and provide feedback
- Development of scalable core-java applications, Web Applications and Web Services
- Work closely with peer teams to ensure that applications are written to allow for overall system performance
- Debug and resolve issues reported in production deployments

`Java` `Spring` `Python` `Unit tests` `Kubernetes`

SOFTWARE ENGINEER
Aug. 2020 - Feb.2023 - Hexagone Behavioral Technology - Strasbourg

- Behavior technology plateform development (Full-stack)
- Artificial Intelligence models and algorithms integration
- IT Infrastructure administrator

`Typescript` `Angular` `Python` `Django` `Openshift`

SCHOOL SPEAKER
Sep. 2019 - Jul 2020 - MediaSchool Strasbourg

- Teaching Information System and Developement
  MySQL Merise HTML CSS JS PHP UML
- Active participation in the formation organisation

SOFTWARE ENGINEER
Mar. 2018 - Jul 2020 - Oxycar - Strasbourg

- Mobile Application developpement (Multiplatform Nativescript)
- Store deployment (Apple Store / Google Play Store)
- Web Application developpement
- Mobile Continuous Integration / Continuous Deployment
- Project manager (Zénith Strasbourg, Etireo, etc.)
- Scrum master
- Interns supervisor

`Typescript` `Angular` `Nativescript` `Android / iOS` `Jira` `CI / CD` `SCRUM`

ENTREPRENEURSHIP
Sep. 2016 - Mar. 2018 - Blue anthill - Belfort

- To intervene on Big Data issues
- Valuation of company's data creating simple dashboard
- Alternative software solution development
- Entrepreneurship
- Incubated in Incubateur de Franche-Comté

`Nodejs` `AngularJS` `Elastic`

OBJECTIVE 🎯

With every line of code, I tend to create things with personality to make difference. I use innovation and simplicity as a gateway to translate complex problems into unique experience. The heart of my approach is th constant search for the juncture between technical performance and aestetic by writing clean, elegant and efficient code.

Seeking a position with responsabilty allowing me to have some freedom and be a part of a funny, experienced and passionated team in a growth-oriented company

EDUCATION 🧪

ENGINEER DEGREE IN APPRENTICESHIP
Sep. 2013 - Sep. 2016 - UTBM

Engineer degree in Computer Science, specialized in System Information in apprenticeship

LICENCE - BACHELOR'S DEGREE
Sep. 2012 - Sep. 2013 - IUT Belfort Montbéliard

Bachelor's degree in Computer Science, specialized in Web and Mobile development and System administration

DUT - BTEC HIGHER NATIONAL DIPLOMA
Sep. 2009 - Jan. 2012 - IUT Belfort Montbéliard

Technical University degree in Computer Science

INTERNSHIP / APPRENTICESHIP 🚀

APPRENTICE SOFTWARE ENGINEER
Sep. 2012 - Sep. 2016 - Segula Technologies

- Implemented a calculation software to dimension car air conditioner
- Developed an OS-like software intended for car: Esense
- Implemented a software to pilot the software CATIA using a database

`C++` `Delphi` `Access`

INTERN WEB DEVELOPER
Mar. 2013 - Jul 2013 - Trinaps

- Developed modules for the company extranet in Python/Django
- Implemented a captive portal for the music festival "Les Eurockéennes"

`Python` `Django` `HTML / CSS`

TECHNICALS SKILLS 🔨

PYTHON	////////////////////////////
JAVA	////////////////////////////
UNIT TESTS	////////////////////////////
GIT	////////////////////////////
PROTOBUF & gRPC	////////////////////////////
KUBERNETES	////////////////////////////
INTELLIJ / PYCHARM	////////////////////////////
DATABASE	////////////////////////////
MacOS / LINUX	////////////////////////////

HOBBIES ♥

PROGRAMMING — Anything to make my life easier or challenge myself (scripts, UI, automation, apps, etc.)

READING — Chuck Palahniuk, Daniel Quinn, Don DeLillo, Cioran, Roberto Saviano, Henry David Thoreau, Luke Rhinehart

ANIMALS — Animals biology, habits, behavior, evolutions from dinosaurs to platypus

ITALY — Learning language and culture of my grandfather

GENERAL & SOFTS SKILLS ☕

< / >

COMPUTER SCIENCES ENGINEER

As a naturally organized human, I constantly try to improve my working process to be the most efficient by doing less. I daily develop my skills in project and time management inspired by famous methodology like Agile (Scrum, Kanban, eXtrem Programming, etc.). I work in team by leading by example, promoting communication, implicating each member equally and inviting them to work with their strenght.

`Passionate` `KISS` `DRY` `Good laziness` `Modular vision` `Solutions finder` `Curious` `Understandable`

📊

PROJECT MANAGEMENT

As an IT enthousiast, writing code is a pleasure. I tend to make it clean, elegant and efficient to fulfill my passion. My well handled laziness make me able to have enough modular vision of the problem to solve it using the most efficient solution. I can take vague problems and requirements and break them down into steps and solutions understandable by the client. This strenght make me valuable for the people I work for and show them a real motivation and professionnalism in the work I produce.

`Organized` `Empathy` `Emotional intelligence` `Team Spirit` `Presentation` `Communication`

🌱

START UPPER

Innovation and creation are my daily goals. So I naturally chose the road of start up and entrepreneurship. Since the beginning of my journey, I learnt to discover this eco-system and it molds me to have a full vision of what a business is. I am able to take risks, make decisions and assume it because I don't believe in failure, there is always something to learn.

`Business strategy` `Customer vision` `Communication` `Boldness` `Making decision`

...

MISCELLANOUS

Fueled by high energy levels and boundless enthusiasm, I'm easily inspired and more then willing to follow my fascinations wherever they take me. I'm passionate, expressive, multi-talented spirit with a natural ability to entertain and inspire. I'm never satisfied to just come up with ideas. Instead I have an almost impulsive need to act on them.

`Creative` `Artistic aptitude` `Professional` `Funny` `Loyal` `Business ethic` `Result-oriented`
